Notes

- 1. Reference values listed below reflect analysis results submitted during CORESTA studies (References below) satisfying Clause 5.15 of ISO Guide 34:2009 and statistically evaluated using Approach A in Clause 10.5 of ISO Guide 35:2017.
- 2. The "Reference Uncertainty" listed herein are expanded uncertainties obtained by multiplying the combined standard uncertainty by a constant coverage factor of 3, i.e. *k* = 3.
- 3. The reference values listed herein are reflective of chemical analysis done on a "as is" basis, i.e. the samples were not dried prior to analysis.
- 4. Cigars were smoked using the CORESTA Recommended Method No. 64.
- 5. The values will be updated by the valid until date or as needed.
- 6. Due to the possibility of self-extinguishing, relighting the cigar may be necessary.

The Certified Values and Uncertainties for the mainstream smoke parameters contained herein are reflective only of data obtained from a Linear Smoking machine.

DATA AQUISITION:

Data used in calculations for constituents were reported in multiple studies listed below. Mainstream smoke – CORESTA Technical Report Cigar Smoke Analysis 14th Collaborative Study 2019-2020 (April 2021) Homogenized cigar – CORESTA Technical Report University of Kentucky Cigar Reference Products 2021 Analysis (September 2021)

INTENDED USE: This product may be used for analytical method development, assigning values to materials (when applicable), and, equipment calibration to any applicable extent.

INSTRUCTIONS FOR CORRECT USE: This reference material may be stored in sealed containers or bags at -20°C until testing. Prior to analysis, the reference material should be unopened and transferred to a refrigerator for a minimum of 24 hours or until they are completely thawed, and then moved to room temperature for at least 2 hours until it reached temperature equilibrium. Once the reference materials are equilibrated to room temperature, the reference materials may be stored at 4°C for up to one week, if they will not be analyzed immediately. Any reference materials found to have damaged package should be discarded.

HAZARD INFORMATION: N/A
